EXPERIENCE

During 30 years as a Landscape Architect, Mr. Fernandez has gained experience in the design and construction of projects in all aspects of Landscape Architecture. Experience includes Planning and Design for river and creek corridors, parks, planned unit developments and subdivisions, multi-family development, office, commercial and institutional projects. He is involved in all aspects of design development including design team management, site planning, and design of such elements as vehicular and pedestrian circulation and paving, handicapped accessibility, grading, drainage, xeriscape planting (both large scale such as major boulevards and small scale such as residences), irrigation management, area lighting, special water features and amenities, and recreational facilities. He is also responsible for construction drawings & specifications, landscape maintenance guidelines, bid management and site construction observation. He has been responsible for graphic presentations, written reports and project narratives on many projects. He has been project manager of numerous projects for the firm. In addition, he has been jointly responsible for all aspects of marketing for the firm.
